Advanced Product Design \$15,000 Race to Continue on Wednesday at the Spring Fling

Benson, NC — The Strange Engineering Spring Fling presented by Optima Batteries at GALOT Motorsports Park fired to life on Rob's Automotive Tuesday for the Advanced Product Design \$15,000-to-win Warm-Up race. 327 entries were given the opportunity to dial their cars in with a time run session in the morning.

Sunny weather and warm temperatures earlier in the day were clouded by intermittent sprinkles throughout the late afternoon into the evening, delaying on-track action. After more precipitation before the conclusion of the fourth round, the track crew attempted to dry the racing surface to finish the final pairs.

In the interest of starting tomorrow morning fresh with the first round of the JEGS Performance \$50,000 event, the Fling Team made the decision to postpone eliminations of the \$15,000 race until later in the day on Wednesday.

Everything will be streamed live as it happens on the [MotorManiaTV](#) YouTube channel free to the viewer courtesy of JEGS Performance and Hoosier Racing Tire with new exclusive content produced by the Fling Team.

For more information, visit [www.BracketRaces.com](http://www.BracketRaces.com), the [Spring Fling Bracket Races Facebook](#) page, or text the word "GALOT" to 41372 for race updates.
